

FAZON Unification Q&A v1 (Public-Safe)

Record ID: FAZON-REC-2026-02-03-UNIFICATION-QA-v1

Commitment: interoperability at the governance layer (evidence + traceability + execution gating) across heterogeneous quantum systems, without assuming a specific physical implementation.

Key rules

1) Thresholds/bounds are PRIVATE (never disclosed). 2) Public-safe surfaces: control plane, audit logs, change control. 3) Execution modes: HOLD / FRAGMENT / SEND. 4) Evidence must answer why now / why not now.
